concrete

The Concrete Collection is a series of decorative wall paints designed to replicate the appearance and feel of real urban concrete. By incorporating smooth and course textures in fresh and vintage colours, these distinctive paints bring a metropolitan environment to your interior settings.
Developed for architects, interior designers and craftsman, each of these paints accurately interprets the types of concrete found in the urban environment. Furthermore, the paints are water-based and environmentally friendly.
The application of the paints is simple. They adhere well to a variety of surfaces and they are resistant when a topcoat is applied.
The Trendy Paints Concrete Collection was developed and manufactured in Milan, Italy by Cromas Paints.

Concrete è la collezione di resine murali materiche dall'aspetto totalmente reale, sviluppate per architetti e interior designers che ricercano delle finiture in grado di donare un aspetto unico alle loro superfici. Toni urbani e vissuti si accostano a superfici ruvide, dove l'aspetto estetico e tattile si fondono nella materia. Di facile applicazione, si adattano a svariate superfici dove mostrano la loro elevata resistenza e realisticità. Tutti i colori, accuratamente ricercati nei materiali che circondano gli ambienti urbani e lavorativi nei quali viviamo, sono ricreati mediante l'impiego di vernici a base acqua a elevata compatibilità ambientale. Le vernici Concrete&Cement sono sviluppate e prodotte da Cromas, ascoltando le idee e le richieste di architetti e designers sempre alla ricerca di soluzioni innovative, uniche e alla moda, tipiche della creatività made in Italy.

RawConcrete has the look and feel of new cement. It is matt in its appearance with a surface that is slightly rough to the touch.

RawConcrete, Il cemento naturale lavorato a mano. Superfici ricche di particolari che si svelano alla vista e al tatto. Una superficie da vivere e toccare.

URBAN CONCRETE

decorative paints & resins

UrbanConcrete transforms any surface into an urban environment. It offers a slightly vintage look imparting personality and softness onto the surface.

UrbanConcrete trasforma le superfici in ambienti urbani con aspetto leggermente vissuto; in grado di conferire movimento, vita e personalità. È caratterizzato da toni soft e si integra facilmente in ogni ambiente.

AGED CONCRETE

decorative paints & resins

AgedConcrete has the feel of well-worn concrete. It incorporates darker specks and streaks for more contrast with a feel that is slightly rough.

AgedConcrete è la finitura del cemento reale vissuto dove sfumature di colore accuratamente studiate danno l'impressione di un ambiente urbano vissuto, ricco della metropoli.

SmoothConcrete is delicate and quite soft to the touch. It contains smaller particles for a smoother surface with less texture that is also lighter in color.

SmoothConcrete, il cemento delicato alla vista e al tatto, ideale per superfici dove la superficie materica si deve abbinare a un'estetica soft.

MODERN CONCRETE

decorative paints & resins

ModernConcrete is a special blend that is both smooth and slightly aged. It maintains the appearance of vintage concrete, but with a softer touch.

ModernConcrete è la resina capace di donare alle superfici l'aspetto materico del cemento liscio vissuto, tipico dell'ambiente urbano, mantenendo un tatto soffice e delicato.

CRYSTALLINE CONCRETE

decorative paints & resins

CrystallineConcrete takes the feel of raw concrete that is rougher and integrates reflective silver specks that faintly sparkle with the light.

CrystalConcrete è la resina ad effetto cemento con dei punti luce diffusi e non invadenti. Impreziosisce le superfici permettendo giochi soft di concerto con la luce.
