real oxidized metals

oxidized metals

RedOx is an collection of interior paints that beautifully recreates the naturally occuring oxidization of metals-in just a few hours. With a range of colours in Rust, Verdigris, and Antique Brass, these paints bring the rustic outdoors indoors.
Developed with architects, interior designers and craftsman in mind, these oxidized paints were formulated with real metals to rapidly oxidize the painted surface. The result is an extremely realistic finish that varies from smooth to slightly rough. Furthermore, the paints are water-based and environmentally friendly.
The application of the paints is simple-only a paint roller is needed. They adhere well to a variety of surfaces with minimal thickness and they are durable when a topcoat is applied.
The Trendy Paints RedOx Collection was developed and manufactured in Milan, Italy by Cromas Paints.

RedOx è una collezione esclusiva di vernici materiche ossidate sviluppate per architetti e interior designers che desiderano delle finiture ad effetto metallo ossidato di estremo realismo, alla vista e al tatto. Queste vernici permettono di ottenere superfici a reale effetto ossidato, con il colore naturale e proprio dei metalli, caratterizzati quindi da sfumature di colore. Tutti i colori sono reali; il processo semplice e veloce, permette l'ossidazione realistica dei metalli sulla superficie, replicando il lavoro svolto da anni di intemperie ed esposizione alle condizioni climatiche più avverse. Le vernici RedOx – TrendyPaints sono sviluppate e prodotte da Cromas, ascoltando le idee e le richieste di architetti e designers sempre alla ricerca di soluzioni innovative, uniche e alla moda, tipiche della creatività made in Italy.

R E A L R U S T

w a l l d e c o r a t i v e p a i n t s

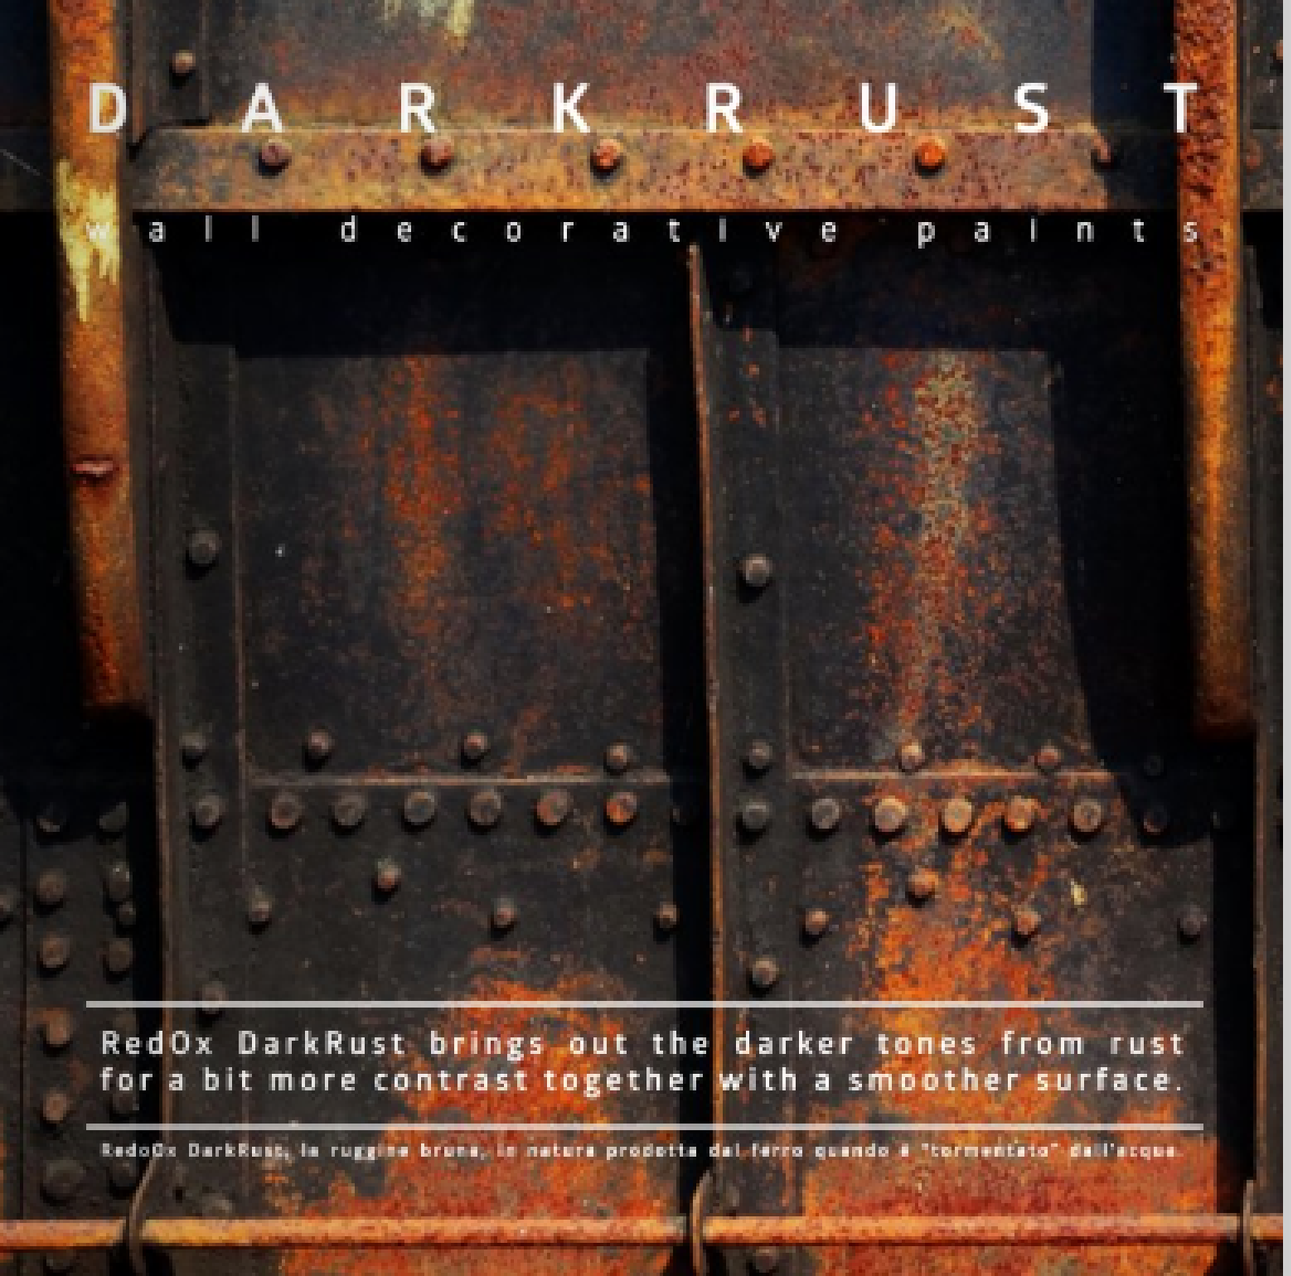

RedOx RealRust sets the standard with its natural blend of vivid red and orange colours combined with a somewhat rough texture.

RedOx RealRust dona alle superfici l'aspetto ossidato per eccellenza, la ruggine nel suo colore più comune, dai toni rossi e intensi.

The colours of the paint samples are for example only. Your colours may vary depending on the surface and application.

BLACKVERDIGRIS

wall decorative paints

RedOx BlackVerdigris fuses the deeper shades of copper with our naturally occuring green patina for a more weathered appearance.

RedOx BlackVerdigris, passaggio ultimo del rame verso la massima ossidazione: colori che richiamano passaggio di secoli e generazioni, elegante e raffinato sulle stesure sfuggenti

ANTIQUE BRASS

wall decorative effects

RedOx AntiqueBrass reveals the natural harmony between the oxidized green patina and the rich brass undertones.

RedOx AntiqueBrass, la prima lega metallica forgiata dalla combinazione rame, zinco, un misto di colori naturali e chimici.

V E R D I G R I S

w a l l d e c o r a t i v e p a i n t s

Redox Verdigris beautifully blends the naturally oxidized green patina and vivid copper hues for depth and contrast.

Redox Verdigris. Il rame metallico che traspare dal verderame ne esalta il reale colore, l'espressione più comune del verderame in natura.

The colours of the paint samples are for example only. Your colours may vary depending on the surface and application.
